

PRODUCT INFORMATION

VACUUM PUMP OILS

(CODE: 7070)

Description

Royal Lubricants Vacuum Pump Oils are highly refined mineral based products manufactured specifically for the lubrication of vacuum pumps used in the dairy industry and some laboratory applications.

Summary of benefits

- Superior oxidation resistance.
- Excellent anti-wear properties without the use of zinc containing additives.
- Excellent demulsibility ensuring it readily separates from water providing pump durability.

Specifications

Meets the following international performance specifications:

- SAE 30, ISO Viscosity 100
- SAE 20, ISO Viscosity 68

Storage

All packages should be stored under cover to avoid the possible ingress of water and the obliteration of drum markings. Products should not be stored above 60°C.

Health, Safety and Environment

Health and safety and environmental information is provided for this product in the relevant Materials Safety Data Sheet, which can be obtained by contacting Royal Precision Lubricants on (03) 9553-0840.

Typical characteristics

	Test method	Units	Value
Density @ 15°C	ASTM D1298	kg/L	0.884
Kinematic Viscosity	ASTM D445	cSt	98
	ASTM D445	cSt	11
Viscosity Index	ASTM D2270	-	100
Pour Point	ASTM D97	°C	-6
Flash Point (COC)	ASTM D92	°C	240
Aniline Point °c		- °C	105

Typical characteristics are only a guide to industry and are not necessarily manufacturing or marketing specifications and do not constitute a legal liability.
