

ECO Rockdrill Oil

PRECISION LUBRICANTS

SPECIALIST LUBRICANTS

Biodegradable, Synthetic Performance.

- *High load carrying capacity*
- *Excellent rust protection due to high water displacing ability*
- *High film strength due to introduced tackiness agents*
- *Readily biodegradable with a low toxicity anti-wear additive system that does not add to heavy metals that bio accumulate in the food chain*
- *Miscible with water*
- *Low pour point to assist in lubricating pneumatic systems where low temperatures are experienced around the exhaust ports*
